- ▼ Pit lighting

DIMENSIONS

MARINE, OUTSIDE AND CORROSIVE ENVIRONMENTS WATERTIGHT PIT OR CARGO HOLD LIGHT FIXTURES

TECHNICAL SPECIFICATION

HOUSING

Available in natural heavy wall cast brass or natural copper-free marine-grade cast aluminum.

GUARD

Heavy duty protective hinged guard in natural cast brass or natural copper-free marine-grade cast aluminum supplied as standard.

OUTLETS

All units are supplied undrilled unless specified at point of order. Suitable for up to a max 3/4" NPT four way.

GASKETS

One piece gasket provides an effective seal between the globe and housing.

LAMPHOLDER

A phenolic medium base lampholder is supplied as standard.

HARDWARE

Stainless steel.

VOLTAGE OPERATION

Rated for use to 250v AC.

LAMP TYPE

Junior Type Cargo Hold and North Sea fixtures use 100w A-19 max incandescent lamps while standard Cargo Hold fixtures use 200w A-21 max incandescent lamps. All fixtures are supplied without lamps.

GLOBE

A clear impact resistant glass globe is provided as standard.

TERMINAL BLOCK

A 4 pole terminal block is provided on all fixtures as standard.

REFLECTORS

Spun aluminum with a white high gloss polyester powder coated finish.
